

Sitti Private Dining Information

Main Dining Room

On the ground floor of Sitti is the main dining room. This room accommodates approximately 100 seated and 150-200 for a standing reception. This setting is very modern and beautifully adorned with bead details, rich colors, and a gorgeous antique Art Deco bar. The room has an urban feel with a great view of Wilmington Street.

Private Dining Room

Just below our main dining room is our downstairs dining area, which can accommodate up to 50 people seated and 70 for a standing reception. This quaint and cozy room has the original floor, brick walls, and exposed beam ceiling and is perfect for a romantic dinner for two, formal dinner or lunch party, business meeting or family gatherings.

Courtyard

Just outside the main dining room is our secluded courtyard. This large space can accommodate approximately 55 seated with our existing patio furniture but is large enough to accommodate up to 150-200. This space is equipped with a stage, which is perfect for live music, umbrellas and fans to provide relief from the summer heat, and heaters for those cool evenings or late fall afternoons. This space is perfect for a candle lit dinner under the stars, wedding receptions, and social events.

Sitti Table

The communal table, or Sitti table, is one of the restaurants most intriguing details located in the center of the main dining room. This table, made from Lebanese cedar, embraces the idea of connectedness and is beloved by traditional Lebanese families. This table is available for semi-private occasions and can seat 26.
